

Bonny Planetary Gearbox

[400 Series Planetary Gear box, Manufacturer, Supplier, Factory, Exporter in china](#)

[400 Series Planetary Drives](#)

Planetary Gear Model 400 Series Ratio 5-28
Output Torque 1000-180000N.m 400 series hydraulic transmission can endure the large outside radial and axial forces. It features for high torque, high starting efficiency, low speed stability and low noisy operating. Thus it is widely used in construction machinery, railway, ship, petroleum, mining and metallurgy equipments. Features: One or two-stage planetary gearboxes, smooth operation and reasonable structure. Small volume, compact structure and high transmission efficiency. Radial piston hydraulic motor with long life operating. Mounting dimension is available on request. Brake, balance valve, shuttle valve and the distributor which can integrate all kinds of function valve are also available on request.

Model	Ratio (i)	Output Torque (Nm)	Speed
